## Centenaire du musée du Caire

n The publication is scheduled to appear from the SCA Press in November, 2002.

n Colleagues who are interested in contributing to the Centennial Anniversary volumes should let us know of their interest by sending the word-processed provisional title of their paper and an abstract of not more than 50 words along with their name, address, work address, and e-mail/fax number not later than 31 July 2001.

n We invite contributions dealing with the history and museology of Egyptian museums and collections worldwide, and on Egyptian artifacts and collections, particularly those which, due to the history of excavations at various sites or divisions of finds from excavations, etc., are divided between the Egyptian Museum in Cairo and foreign institutions.
